

Testimonial for Preferred Management Services

As the President of the Board of Directors at La Grande Provence Condominiums, I speak for myself personally as well as professionally and for our entire Board when I say that working with the Preferred Management Team has made our lives and living environment a pleasure.

They are always responsive to our needs and requests. Their system for financial reporting keeps our bookkeeping requirements current and comprehensive. They provide exceptional budgetary advice, monitoring, and recommendations.

They are expert in negotiating contracts, advising on new legislation, keeping up with the myriad of government inspections and regulations, and yes, even the color of the flowers.

They always respond to any situation in a timely manner whether it is during business hours or after hours' emergencies.

The entire staff is very pleasant, accommodating and easy to work with.

I would highly recommend them to any Association in the market for a Management Company.

A.R. Papandrea, President

LaGrande Homeowner's Association
